Gen. Logan in Confident of Victory —Mr. Blaine Serene and Happy.

Blaine Carries Every Northern State but Connecticut, New Jersey, and Indiana.

Cleveland Gets Those Same and the Solid South. "Iowa Hoggy and Thirsty."

Wednesday morning THE TRIBUNE received the general result which represent Republican averages. Since then we have said as much designed to indicate a false logic of States's election. This morning, for the first time, we are tempted to raise the banner of victory. The result will not be known degree until the State Returning Board shall announce it. But the exaggerated estimates of Cleveland's majority in New York made by the Democratic and engrossing newspapers have subsided down to a few hundreds, and the aggregated returns from all the precincts in the State compel a mere handful give States a small majority. The precarious curtailing claims of the Cleveland papers and managers seem to have been a part of the same plan of fraud and bluster with which the entire campaign against Blaine has been conducted.

There are approximations, and we take some signs, of fraud in the New York result. Chairman Manning of the State Committee proclaimed through his newspaper (the Albany Argus) yesterday that "New York having been made Democratic by the people, will remain, be declared, and be counted Democratic, and whatever is necessary to this act of justice will be thoroughly and fearlessly done." Such a notice has an ugly look. At the time it was writing Manning did not know, and he does not now know, that New York is Democratic. Why does he claim that it will be counted Democratic? Why does he talk of using "authority" when the inspectors of election, the Board of Supervisors, and the Returning Board of the State are to the basis of the Democrats? The significant statement is also made that a dispatch was sent by a prominent Democrat and broker of New York yesterday to a still more prominent Democrat of this, Ill., urging the latter to "send Manning a good, stiff dispatch and get some backbone into the people at Albany." The closeness of the vote certainly offers a great temptation to tamper with the returns, and there is ground for suspicion that something of this kind has been done already. But if States is counted out in New York, the victory will be regained and defeated as sure as there is a God in Heaven.

In this connection we direct attention to the very suspicious "returns" from Westchester County, which has only been twice called upon to help Cleveland out. The closing one of the Associated Press bulletins read as follows:

The last thirty-seven districts from Westchester County and Cleveland about 700 ahead of States on the vote.

This morning we have another dispatch from Westchester, as follows:

NEW YORK, Nov. 7, 5:45 A. M.—Official returns from Westchester County give a Democratic gain over previous figures of 400. This makes Cleveland's majority in the State 577.

Where will Westchester get through? We shall be glad to know when the lightning statisticians in that Democratic citadel have got done and gone to bed.

It will also be noticed that the Democrats in the City of Albany, under the guidance of Sunday and Cleveland himself, have been tampering with the returns and have refused Republican tabulators in the south house.

It is a great triumph for Mr. States, as well as a victory for his party, if he has carried New York. The suspicious tabulation attributed there, and it had the support of several newspapers which had held a high position in the Republican party as well as some eminent men whose influence and zeal undoubtedly betrayed a considerable proportion of the business men of the Empire metropolis. The St. John fraction made their campaign—not for prohibition, which they knew to be out of the question—but to defeat the Republican party and gratify their own candidate's petty malice. Tammany plotted at the last to defeat Cleveland's ballot, but found that it could not deliver its entire vote. Tammany has been overmatched, as it might have expected, by the defeat of its city and county ticket, and John Kelly and his associates will waste no sympathy over Cleveland's downfall. The prohibition movement ended the animosity of some of the Germans and other liberal-minded citizens. All these influences combined to make States's fight in New York hot, fierce, and discouraging. The grave conditions ended victory, if it has been secured, at the most brilliant.

With New York, which may conservatively be said to be more probably for States than for Cleveland, States will receive 219 Electoral votes without Cleveland's home State of Indiana, which is Democratic.

AT ALBANY.

The manager here of one of the wires has been served with the following notice:

[Telegram to Democratic Executive Committee, New York City.] Nov. 6.—The Republican National Committee informs that the returns now received warrant it in announcing the triumphant election of States and Logan. The Republicans have carried every Northern State except New Jersey and Connecticut. Virginia seems safe to have given a majority for the Republican cause and the ticket, and there is a strong probability that West Virginia has also, while other Southern States are still in doubt. The Northern States alone, however, give to States and Logan 201 Electoral votes, and ample more change.

"In New York enough to tamper with the returns have already been secured. The actual votes cast in New York City, as Kings County, and in other cities prominently, give to the ticket only 50 majority in favor of Cleveland, while 30 precincts, and six wards from, gave 2,175 majority to Harlem. There is, therefore, no ground for doubt that the honest vote of the State has been given to the Republican candidates, and, though the attempt to defeat the majority in the State by fraud in the face of the known sentiment of the people, the Democratic party, which has unanimously been a party of fraud in elections for years, will not be permitted to thwart the will of the people.

"The National Republican Committee calls on the Chairmen and Republican members of all county committees to take the promptest and most stringent means to secure the security of the ballot. The Republican majorities have been honestly elected beyond question, and pursuant to these the people and ballot-box will thus successful at the polls must be absolutely secured and assisted by every honest upstanding citizen. B. F. JONES, Chairman.

"JAMES SAMPSON, Secretary."

THE STATE COMMITTEE'S ADDRESS.

The Republican State Committee have issued the following:

"In view of the claims made as to the result of the election in New York, the Republican State Committee deem it their duty to announce that, while the vote is very close, the returns and estimates from the most authentic sources justify the belief that the people of this State have cast a majority in favor of the Republican candidates. We have received copies of the official returns as filed in the several County Clerks' office in all except eleven counties. Section 204, as to these counties, requires the Secretary of State to send certified information to the clerks of counties designated to give New York and Kings Counties. From the remaining nine counties we have received direct information from the best attainable sources, and feel justified in asserting with entire confidence that the State has given Republican. The result thus arrived at is confirmed by an entirely unbiased tabulation, based upon the returns published directly from every election district in the State.

JAMES SAMPSON,
Chairman."

STATE REGISTRATIONS.

[Special to The Tribune.]

NEW YORK, Nov. 6.—[Special.]—The State registration shows in the fifty-three counties outside of New York and Brooklyn 1,000 more registered voters than in 1880. The Democratic and engrossing newspapers have claimed that the registration would show a decrease of 50,000 to 100,000 in the State, and that this decrease would be largely in the Republican counties. The registration in Albany, Rensselaer, Schenectady, Saratoga, Columbia, Greene, Ulster, and Orange counties, which are Democratic, shows a decrease of 1,000 votes, while the registration in Republican counties shows an increase of 2,000 votes. The registration in Kings County is 3,000 less than in 1880, and in New York City 5,000 less than in 1880. The registration in Brooklyn is 4,000 more than in 1880, and in New York City 1,000 more than in 1880. The registration in Albany is 1,000 more than in 1880, and in Troy 1,000 more than in 1880. THE LIST.

A list of new democratic members.

The following is a list of the members of the Forty-ninth Congress, known to have been elected, including those previously chosen in Oregon, Vermont, Maine, and Ohio, and those chosen or indicated by the latest returns, together with the politics and postoffice address of each. Members of the Forty-eighth Congress are designated by the letter "C" following the name. Where there is uncertainty about the title, but not apparently, those changes have been made in the published yesterday, which, in most cases, are favorable to the Republicans. In districts that elect Republican Congressmen and cast a decided, nothing a complete change in the political complexion of the delegation from that State, an important gain is shown in the result in West Virginia, the Southern delegation from out of the four districts. Only one gain from that State was claimed in the Fifty-eighth Congress, Hendricks county, now elected in the Third district, but last night's returns change the result, Hendricks county giving the Republican candidate, Cavins, 771 majority. New York will be strong enough in point of numbers in the next Congress, both parties having claimed seventeen members each. Good authority comes from Albany, the Republican managers in the State Legislature having decided to organize the Senate by a split delegation from that State, in the event of the Democrats securing the Assembly. In Connecticut, Republicans, if elected will have only a small majority to go on. The latest figures still show that Republicans, in addition to the Connecticut delegation, will have a majority in the Senate, on which the Democrats have a gratifying working majority. Indiana, although Congressman Chapman, though by a reduced majority, although generally conceded to the Republicans, the first time has gone Democratic. Nebraska, including Dorsey's re-election as Governor, by a small majority. The result of the Congressional election as follows:

And yet there are nine more 1,000 men handling the same work has given to many to the present age. Iron and steel are to be seen in every stage of manufacture, from the rough and trouble to the finishing touch.

The principal feature of interest at present is the construction of the new armored for the new vessels. Forty-five men are employed in the Ordnance Department, the main work of which is done here. There are of four sizes, five, six, eight, and ten inch guns, and twelve inch are being done, though, and several of the last long. The greater length gives the gun a accordingly proportioned to the recoil. The forged shafts are prepared using from here and brought to a point so that enough to be turned down to the proper size. The gun-barrels are next taken in hand, bored out, turned down, and finished. Then the breech-mechanism is put in, and the gun is ready for the gun-carriage. The gun-carriages are made here, and are of the most massive and substantial character.

A WIFE'S PERIL.

A West Side Woman Elbs Her Husband and Their Little Daughter.

Then Attempts Her Own Life—Family Troubles and Jealousy the Cause.

Insanity Twice Clearly Established—What the Neighbors Say of the Tragedy.

In a moment of frenzy caused by jealousy Mrs. Doris M. Lambert fatally shot her husband, Sebastian Hoffman Lambert, and their little daughter, Pearl Lambert, and attempted her own life. The shooting occurred in a small connecting apartments on the basement at No. 17 Lytton street, leading from their apartments on the second to the first floor. Mrs. Lambert, who was with her husband and family from on the first floor, heard a noise in the hallway and hastened from the rear portion of the house to the front. There she met Dr. Lambert lying on the floor of the apartment with four shots in his body. He managed to call before sinking down. Thinking he had probably been taken with a fit, Mrs. Lambert, without having to investigate closely, hastened to the adjacent drug store, on the corner of Lytton avenue and Morrison street, and told the proprietor that the servants were required at once. Returning to gather up the things which would facilitate in the proper position. Then she went to the front door and found the body. Blood was flowing from twelve wounds in the left temple and the right side of the forehead. Stooping low to feel the heart she discovered with horror that the dagger remained in the position and considered the Lake street depot. When the officers arrived there with Dr. Holmes to the house and on searching the apartments found Mrs. Lambert seated in a rocking chair in the front room sobbing and calling on her husband and child to speak to her. The knife had been broken from a wound just below the left breast. In one glass downstairs was found the remains of a dose of poison. Mrs. Lambert was then taken to the Lake street depot, where she was examined by Dr. Holmes, who pronounced her insane. A long time was required to get her to speak, but she finally told the story of the shooting. She said that her husband had been drinking heavily for some time past, and that he had been very abusive to her. Last night he came home and found her in bed. He ordered her to get up and dress herself and the baby, and go out with him. She refused to do so, and he then struck her with his fist. She got up and dressed herself and the baby, and went into the front room. Her husband followed her there, and, drawing a knife, stabbed her in the breast. She then shot him with a revolver, and, thinking that she had killed him, she turned the weapon upon herself. She then went to the front door and called for help. Mrs. Lambert is a woman of about 30 years of age, and has been married about seven years. She is the daughter of Mrs. Doris, a well-known resident of Lytton avenue. Dr. Lambert was a graduate of Rush Medical College, and was a young man of excellent character. He was about 30 years of age. He was a member of the Masonic fraternity, and was also connected with the Knights of Pythias. Mrs. Lambert is a woman of fine appearance, and is highly spoken of by her neighbors. She has been subject to fits of insanity, and twice before has been committed to the asylum. Once she was released after a short confinement, and the second time she was kept there for a year. She was released about a year ago, and since then has been living with her husband. She is now under the care of a physician, and it is thought that she will recover.
